

Max Planck Institute for the Physics of Complex Systems

The Division of Biological Physics of the Max Planck Institute for the Physics of Complex Systems (MPIPKS) seeks one

Research Group Leader

Candidates are expected to have several years of research experience after their doctoral degree and a solid background in theoretical physics with a focus on theoretical approaches to biological systems. Applications in related fields are also welcome (e. g. soft matter physics or physics of nonequilibrium and nonlinear processes). At MPI-PKS we develop theoretical and quantitative approaches to the dynamics of cells and tissues. We work closely with experimental groups at the Max Planck Institute of Molecular Cell Biology and Genetics. The successful candidate is expected to contribute to this interdisciplinary collaboration.

We offer a position for a period of 5 years with TVöD EG 15 salary. Funds are available for postdocs and 1-2 PhD students. The required equipment and office space will be provided.

Please merge your application including CV, list of publications, short description of research accomplishments and future plans in one pdf file and submit it online via <http://www.pks.mpg.de/bprgl>, by e-mail to bprgl@pks.mpg.de or by post to the following address:

Prof. Dr. Frank Jülicher
Max Planck Institute for the Physics of Complex Systems
Nöthnitzer Str. 38
01187 Dresden, Germany

MAX-PLANCK-GESELLSCHAFT

Please also arrange for three letters of reference to be sent directly to the address mentioned above or email to bprgl@pks.mpg.de. Application deadline is **March 15, 2016**.

The Max Planck Institute aims to increase the number of women in scientific positions. Female candidates are therefore particularly encouraged to apply. In case of equal qualifications, candidates with disabilities will take precedence.
