

Wilhelm and Else Heraeus Seminar
on

Micro -and nanostructured biointerfaces

Organizers:

Sebastian Springer

Eva Sevcsik

Gerhard J. Schütz

Topics

Structuring surfaces on the
micro/nanoscale

Microarrays for drug
discovery

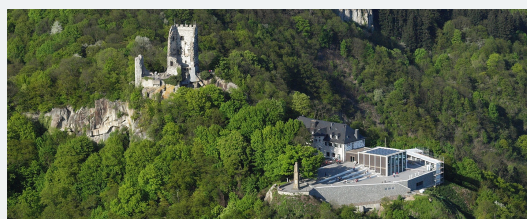

Micropatterning for cell
biological questions

Manipulation of biomolecules
on the nanoscale

Application deadline:

September 15, 2018

[http://patterns-
meeting.user.jacobs-university.de/](http://patterns-meeting.user.jacobs-university.de/)

Physics Center Bad Honnef
November 25-28, 2018

Invited speakers

Jay T. Groves (UC Berkeley)

Pascal Jonkheijm (University of Twente)

Graham J. Leggett (University of Sheffield)

Jose M. Moran-Mirabal (McMaster University)

Josep Samitier Martí (IBEC Barcelona)

Karen Martinez (University of Copenhagen)

Elena Martinez Fraiz (IBEC Barcelona)

Christof M. Niemeyer (KIT)

Raghavendra Palankar (University Greifswald)

Jacob Piehler (University Osnabrück)

Joachim Rädler (LMU Munich)

Kheya Sengupta (CINaM-CNRS)

Ana Teixeira (Karolinska Institute)

Shalom J. Wind (Columbia University)
